HISTORY OF THE COMPANY

The “Paladium” name was inspired by the famous Architect Andrea Palladio. His European style of architecture is currently known as Palladian Architecture today.

When Lou Vizzaccaro Founded Paladium in 1979, he was guided by a personal vision of what a construction company should be, Ambitious enough to take New York’s most challenging jobs, Creative enough to turn even the smallest job into something special. We take the architect’s vision and bring it to full life.

We have succeeded in NYC and have expanded into Long Island, New Jersey, Connecticut, Pennsylvania, Baltimore, Washington DC, and more...

Luigi (Lou) Vizzaccaro Founder and President

When Luigi (Lou) Vizzaccaro founded Paladium in 1980 he was guided by a personal vision of what a construction company should be. Ambitious enough to take on New York’s most challenging projects. Creative enough to turn even the smallest job into something special.

“The tough jobs, the most challenging ones-those are the “fun” jobs says Vizzaccaro. The best part for me is resolving mishaps that unfortunately do take place. I will resolve every time.”

Our Specialty

Paladium's specialty is altering and interior renovations. Whether it be turning a bare room into a bank branch, a main frame computer installation, redoing an office so that it bears the special stamp of the executive or turning an empty hospital space into a Linear Accelerator or MRI facility. Between Vizzaccaro and his supervisory staff there are more than 50+ years of construction experience. "I make myself available for my customers, otherwise I rely on my team of workers to do our job to up most satisfaction in regards to our clients."

We are family

Vizzaccaro employs many family members. Vizzaccaro feels "no one will take care of business better than family". That is why our clients are always satisfied! This is proven by the repeat business we receive .

Paladium Gives Back

With all of Vizzaccaro's project successes he never fails to give back to the community. He is active and contributes to various charities.

PROJECTS

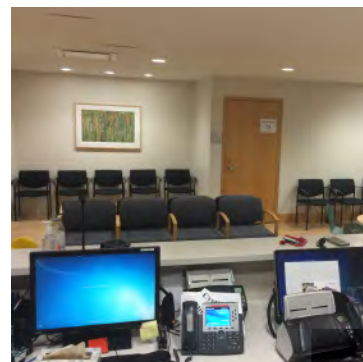

Paladium's specialty is altering and interior renovating interiors. Turning a bare room into a bank branch or a main frame computer installation. Redoing an office so that it bears the special stamp of the executive who runs it. Touching an empty store's slab walls and raw concrete floors with enough construction magic to attract customers. Taking an empty hospital space to become a Linear Accelerator or MRI facility where patients can come a feel at ease.

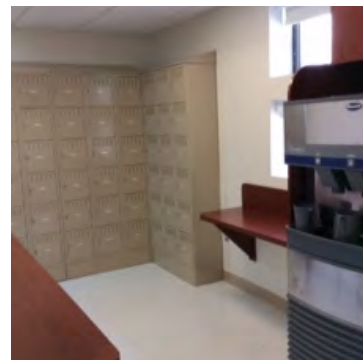

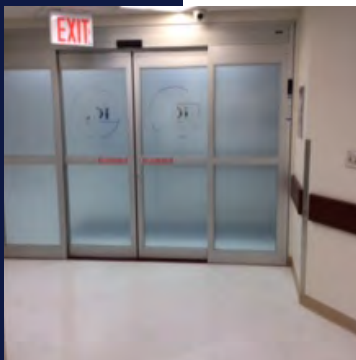

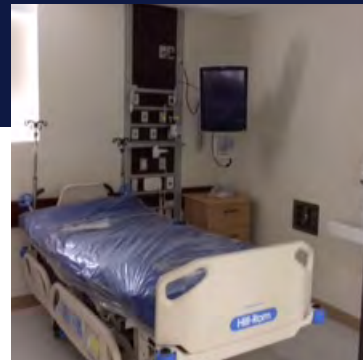

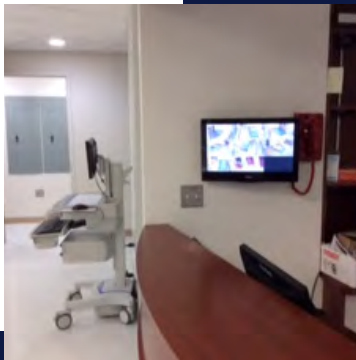

Medical Offices

Paladium builders Inc has diversified expertise in many areas in the Health Care industry. For over 40 years Paladium Builders has continuously worked on projects in the Health Care/Hospital niche growing and building as medical technology has progressed keeping our experience current. From simple exam rooms to satellite offices to the very detailed medical testing and operating rooms. Paladium Builders' experience encompasses all of this.

Interior Offices

Paladium Builders Inc. has vast experience in the office interior renovation and fit out arena. We have embodied some of the most beautiful and intricate architectural features in the financial industry. From curved lacquer walls to full stone tables and reception desks, to architectural feature walls and mosaic wall art to the simplest open office space. Nothing is too challenging or too simple. We embrace building interior variety in all forms.
